## GOVERNMENT OF FIUME IS OVERTHROWN

Boy Millionaire

Francis Francis, student at Rugby, England, has just inherited an estate estimated at \$9,000,000 from his grandmother, Mrs. H. C. Bostock, who died in the United States. Much of the estate is in Standard Oil stock.

FIUME, March 4.—(By the Associated Press)—The committee of national defense proclaimed the final overthrow of the provisional government under President Zarella today. The government capitulated after fierce fighting.

The committee, upon assuming power, asked the Italian government to send a representative to administer the government of the city until quiet is restored.

Rome Considers Fiume Situation  
ROME, March 4.—(By the Associated Press)—A council of ministers today discussed at length the crisis in Fiume which has complicated the already difficult situation confronting the new cabinet.

The attitude of President Zarella, who has been forced to hand over the government to the national committee of defense, does not appear quite clear here. Shortly after he assumed power in October last, he came to Rome and obtained a loan of 200,000,000 lire. He then expressed a great belief in the Italian aspirations in Fiume, but upon his return to that place almost immediately incurred the enmity of the Italian element.

Since early yesterday forces of fascist legionaries and Republicans have been in possession of the city. They captured the posts and telegraphs, and before their advance the police organized by Zarella retired.

## Haynes Orders Supplies Of Industrial Alcohol At The Fleischmann Plants Seized

WASHINGTON, D. C., March 4.—(By the Associated Press)—Prohibition officials in New York and ten other cities where branch agencies of the Fleischmann Yeast Company are located were preparing today to execute the orders of Prohibition Commissioner Haynes to seize all supplies of industrial alcohol in the plants. The orders were issued last night, following the revocation of the company's industrial alcohol permits.

As ground for this action, which the prohibition commissioner said he regarded as "one of the biggest things done by the prohibition bureau," Mr. Haynes in a statement charged the company with "diversion of non-beverage alcohol for beverage purposes," and among other things with "disposing of non-beverage alcohol on forged permits and without permits to purchase."

High prohibition officials generally were non-committal today as to the effect of the revocation upon the manufacture of yeast. The prohibition bureau, officials declared, was concerned with enforcing the national prohibition act and not with the yeast manufacturing angle of the case.

Commissioner Haynes declared that he was not acquainted with the technical effect of the loss of their alcohol permits by the Fleischmann company, but would not discuss the yeast phase further. Other high prohibition officials, however, asserted that if the loss of the alcohol permit by the Fleischmann company were to interfere with the manufacture of yeast by that concern, it would not affect the baking of bread as dry yeast, which they explained was made without alcohol, was available at all grocery stores.

## Threatened To Kill His Children

DETROIT, MICH., March 4.—(By the Associated Press)—At the request of Mrs. Barbara Besse, police today began a search for her husband, Ray Besse, and their two children, Ray and Leonard, 6, who disappeared last night after Besse is alleged to have threatened to "do away with the boys."

Besse was last seen, so far as the police could learn, walking hand in hand with the children toward the Detroit river. Near the water's edge at Orleans street, the officers reported, they found the footprints of two small children and a man. Besse, according to his wife's statement to the police, had been drinking recently and several times threatened her with violence. They quarreled yesterday afternoon, Mrs. Besse said, and he reiterated the threats against her.

John Sweet, a patrolman and roomer at the Besse home, prevented the threatened attack, whereupon Besse told his wife, according to Sweet, "I'll do away with the children to make you suffer."

## To Continue Air Mail Service

WASHINGTON, D. C., March 4.—(By the Associated Press)—Funds to continue the transcontinental air mail service and to restore the New York City pneumatic postal tube system are to be provided in the annual post office appropriation bill under agreements reached by senate committee members in charge of the measure. In passing the bill the house refused to provide for either of these services and former Postmaster General Hays recently appeared before the senate committee in their behalf.

## Food Products Firm Bankrupt

TOLEDO, O., March 4.—(By the Associated Press)—The Marlowe-Bucklen-Schoon Company, of Toledo, manufacturers of tomato and other food products, through their attorney, Henry Middleton, late yesterday filed a voluntary petition in bankruptcy in federal court here. The firm's liabilities were listed at \$114,781 and their assets placed at \$214,194. However, according to the statement of Middleton, the actual value of the assets will be in the neighborhood of \$100,000, the chief assets being in the form of a note for \$150,000 given by the Ohio Conserving Company, which went into bankruptcy last December.

Reason for the failure is said to be the slump in the market price for tomato products.

## A Year In The White House

It Leaves Harding As Healthy As Before, But President's Doctor Fears For Future

PRESIDENT HARDING AND SOME OF THE VIEWS PHOTOGRAPHERS HAVE CAUGHT OF HIM AT WORK AND AT PLAY DURING THE PAST YEAR.

BY LEO R. SACK

WASHINGTON—President Harding concludes his first year in the White House today. (Continued on Page Six)

There was a great deal of gripe and a mild form of influenza in Washington this winter, "and the president was subjected to the same opportunities of getting sick as any other man."

But he escaped serious illness and General Sawyer naturally feels happy because, as he says, his job is not to cure the president, "but to keep him well."

The president averages 20 conferences a day.

There is how General Sawyer diagnosed the condition of his patient: "The president has gone through a trying, strenuous year of many great responsibilities and much anxiety in a splendid way."

Physically he is apparently as well today as when he started a year ago.

"Regardless of all privations of close confinement and lack of usual outdoor exercises, in which he has always engaged, he reports as near normal today as any man could possibly be. In other words, I dare say that President Harding is in prime physical condition, equal to what he was a year ago."

"No man could have improved much under the load that he has carried. He has done well to hold his place."

"No man can come into his office with his long hours and responsibilities and change of normal habits, including official duties and official and exacting social obligations, and have stood it any better than has Warren G. Harding."

Must Conserve  
"But," his physician went on, "a bank which permits its resources to continually dwindle away soon faces failure. This also is true of human beings, and the president is no exception."

President Harding gets great fun out of his golf, aside from the physical benefits, and Dr. Sawyer thinks he should have gone south during the winter for a week or so of golf. Washington weather made golf impossible.

"He should do it now," he declared.

"Fact is he forgets himself entirely and devotes himself to the duties of his office. He is unfair to himself."

General Sawyer has determined that from now on his patient must do more "to maintain himself to a high degree of physical fitness."

He has advised the president that physically "he must be an example to the rest of the nation."

Ill Several Times  
Although the public was not informed, there were days during the past winter one of the most severe in Washington history, when the president had a number of slight attacks which might have brought on

Must Enforce Life Terms  
CINCINNATI, O., March 4.—(By the Associated Press) Until such time as a life term of imprisonment

really means life, rather than an average of seven or eight years in the penitentiary, there can be no modification in the enforcement of the death penalty in Ohio, Governor Harry J. Davis said here today upon his arrival in the city to attend the funeral of former Mayor John Galvin.

Dismissing his fight for the abolition of capital punishment launched by him yesterday, the chief executive pointed out that it would be useless to think of doing away with it, and at the same time leave undisturbed the governor's pardoning power, which has resulted in many sentences to life imprisonment.

## MEDICAL MISSIONARY MURDERED IN THIBET

ST. LOUIS, March 4.—(By the Associated Press)—Rev. Dr. Albert Leroy Seltzer, medical missionary of the Disciples of Christ (Christian Church), the first Christian missionary to be allowed to enter Tibet, and who was kidnapped and held by Chinese brigands sixty days, years ago, was murdered by Chinese robbers, February 17, last, it was announced here today.

The announcement was by the United Christian Missionary Society, which received a cablegram from the Rev. Dr. W. M. Hardy, also a medical missionary in China.

Although Tibet has not been open to missionaries, Dr. Seltzer departed from Yanchow last August to open a hospital at Lhasa. He had received a written invitation from the Dalai Lama, the supreme power of the Buddhists in the province, to establish the hospital in recognition of his work among Tibetan soldiers.

Residents of Fairport  
Most of those killed were residents of Fairport. Many of them had left a dance hall in Painesville, less than half an hour before the crash, while several others had attended a lodge meeting. Two had just boarded the bus and had just settled in their seats when the accident occurred.

An explosion of the gasoline tank of the machine set fire to the debris and several of the bodies were badly burned. The bus which was operated between Painesville and Fairport, was making its last trip to Fairport for the night.

Flagged The Driver  
A. W. Barnes, the crossing watchman, declared he flagged the driver, who had stopped on the south side of the tracks to pick up passengers. A declaration by Chester Parrish, manager of the bus line, that a large oil tank obstructed Driver Adams' view of the watchman's lantern and the approaching train, was discounted by Carl Sullivan, one of the injured.

"I saw the train before we reached the tracks," Sullivan said. "We had stopped to take on two passengers just south of the railroad or we would have been across."

## "Silent" Gunman Shoots Three

NEW YORK, March 4.—(By the Associated Press)—The police were puzzled today by a series of mystery shootings in Brooklyn in which three men, unknown to each other, were hit by bullets. All the shootings occurred in the same general neighborhood within an hour.

Robert Salomsky, a passenger on a Lexington avenue elevated train, was struck in the leg. He heard no shot.

While the police were questioning nearby residents, James Carey, who was walking along Cumberland street, was hit in the side by a bullet. He too heard no shot.

Soon afterwards Thomas Campbell, who was walking on Nostrand avenue, was shot in the right shoulder. He, likewise, said he heard no shot. All were sent to hospitals. Their wounds are not serious.

## SLASH PROFITS OF MINE OWNER, NOT WAGES, THE WAY TO CHEAP COAL

NEW YORK, March 4.—(By the Associated Press)—Cheaper natural gas for the public, to be made possible by slashing the profits of the mine owner rather than by reducing the laborers' wages, is advocated by the United Mine Workers of America in a statement issued here today.

"Mine owners freely admit that the cost of coal to the consumer is too high," declares the statement. "The remedy they suggest, as a preliminary to the opening of new negotiations for a working agreement with the workers, is a reduction in the cost of digging the coal, the miners' wage, which is placed by the operators at \$3.02 a ton."

The statement was authorized by presidents of the United Mine Workers' executive boards in Districts 1, 7 and 9.

### "Small Distillery" Is Uncovered Near Lucasville; Four Arrests Are Made

Surprised while at work operating a "hothead" making plant, it is claimed, four men, James Bernhardt, prominent farmer who lives on Scioto Trail just north of Lucasville, and three companions, John Fugitt, Ernest Parks and Lake Pitts, were taken into custody by county officers when they visited the

Bernhardt farm late Friday night. In the raid the officers captured a 60 gallon capacity copper still and thirty gallons of high proof corn liquor and over 1100 gallons of mash in process of fermentation, they claim.

The quartet on being brought to the county jail were formally charged

with manufacturing and possessing liquor unlawfully and all but Parks were released on \$1000 bond pending arraignment on the charges Monday.

The still was found in an out-building, only a few feet from the Bernhardt home, which had been converted into a small distillery.

### Spanish War Veterans And Auxiliary Enjoy Banquet; Plan Memorial Hall

Department Commander of Ohio John DeCamp, of the Spanish War Veterans with headquarters in Hamilton and Mrs. Edna Holloway, Department President of the Auxiliary of the Spanish War Veterans, with headquarters in Akron, were the speakers after the banquet held in the basement of the United Brethren church last night by DeCamp Camp, Spanish War Veterans and their Auxiliary.

There was a large attendance of men and women at the meeting and after a splendid meal was served by the women of the church, all enjoyed the remarks made by the visiting officers.

Department Commander DeCamp spoke briefly of the plans made for the state encampment to be held here in June and then gave an inspiring talk and patriotic address in which he called attention to the many good things the women at home do for

the front.

Mrs. Holloway in her address told of the work of the Auxiliary and how its membership was steadily increasing.

The banquet proved to be one of the best social gatherings ever held by the Spanish Veterans and their Auxiliary.

A short business session held after the banquet resulted in a committee including George Carroll, Charles Taylor and H. W. Donaldson, being appointed to consider plans for a Memorial Hall for Portsmouth. This committee will take up the matter with other patriotic organizations in the city.

### Tank Explodes; Mechanic Hurt

Wade Gillen, auto mechanic, was painfully injured Friday when a Prestolite tank which he was using exploded at the F. E. Boyer garage where he is employed.

Gillen was using the tank to weld a machine he was repairing and when the tank ignited, the fire backed up through the hose connection and caused the tank to explode with a bang. He was knocked down by the force of the explosion and a piece of steel from the shattered tank struck him on the head inflicting a bad scalp wound. He was lucky to escape more serious injury.

## Military Order Of Snakes Formed

Portsmouth has a new order, the Military Order of Snakes or Lair of Snakes being added to the list of local organizations last night when the Lair of Snakes was instituted at a meeting of Spanish War Veterans held in the library basement at eight o'clock.

This order is for Spanish War veterans only and according to the membership announced last night most of the local members of Peerless Camp, S. W. V. have already joined.

John DeCamp of Hamilton, department commander of the S. W. V., instituted the new Lair here with a charter membership of 21.

The order is for fun, and fun only, and those who entered into the mystery surrounding its ritualistic work last night were amply repaid for their curiosity, and the evening will always be remembered by the men who took part in the initiations.

The work last night is said to have been just a peep into the mystic realm of fun that the order provides. Later as the Lair begins to function regularly some jolly good times are promised the members.

During the business session of the first meeting the following officers were chosen to guide the order of the Serpent through its first twelve months as a fraternal organization in Portsmouth:

Gu Gu, Oscar Humdler: Thirled In-

famous, Inferior Gu Gu, George C. Lauder, Datto, Ed. J. Reinhardt, Lord Keeper of the Sacred Amphora, Andrew R. Foster, Slick and Silky Keepers of the Upholders, Harry Mathiot, Albert Barber, Charles Taylor and Edward Zeck.

The following charter members' names were written in the records of the order at last night's installation meeting:

O. J. Humdler, J. T. Hobstetter, Edward Zeck, A. H. Fitzpatrick, Elmer J. Boren, Marion Conis, Fredrick Holtz, James Sneed, H. W. Mathiot, Edward J. Reinhardt, Geo. C. Lauder, Geo. S. Carroll, Adolph G. Reinert, A. R. Foster, A. M. Farber, Clyde Barber, Byron D. Shivers, R. S. Prichard, John N. McLeod, H. W. Donaldson, Charles C. Taylor.

### Dairy Feeding Schools

Madison, Empire, Ohio Valley and Jefferson communities held their first dairy feeding schools last week. These schools are a part of the regular Farm Bureau program of activities for these communities this year. C. S. Gilliland is in charge of the work in Madison, George Hoover at Empire, L. O. Kennedy in Ohio Valley and Florio Miller in Jefferson. The work was conducted with the aid of Ira McKellin, dairy specialist, O. S. U. It was found that with ground corn worth \$1.00 per cwt. and cotton seed meal worth \$2.50 percent, timothy hay fed to dairy cows is worth about \$16.50 per ton, clover hay \$15.00, soy bean hay \$10.00, cow pea hay \$2.00 and alfalfa \$22.00.

It was also found that corn silage from corn producing forty bushels per acre was worth \$20.00 more per acre than the same corn and stover fed in the usual way to dairy cows. Soy beans in the silage add a great deal to the value of the silage.

Many were the remarks during and after these meetings. "I always knew timothy hay and corn stover was a poor refuge feed for cows, but I never took time enough to actually find out the true feeding value of them as compared to the legume feeds." Don't believe I will have enough clover hay to feed me next

year and according to this dope I can't afford to feed timothy hay. Guess I will sow some soy beans of cow peas." One man was heard to say "Guess I will borrow the money to buy a silo." Where dairy cows are being fed perhaps no other investment on the farm would pay a higher rate of interest.

Other communities that will hold dairy feeding schools some time in March are Sedan, Otway and Washington Township. O. F. Dodds has charge of the work at Sedan, A. H. Jones at Otway and Harve Culp in Washington Twp. Bulletins recently prepared by Mr. McKellin on the subject of feeding dairy cows may be had for the asking at the Farm Bureau office.

### Boys' and Girls' Club Meeting in Jefferson Township

John Miller, chairman of Boys' and Girls' Club work, believes in keeping step with the times and says Jefferson Township boys and girls are going to be heard from this year in club work. After one or two days' pulling through the mud visiting parents and children, he called a club meeting Saturday, February 25th, where club work was discussed in all its phases, after which seven boys were enrolled in the Pig Club and six girls were enrolled in the Poultry Club and a dozen more names suggested. The aim as indicated in their community program for 1922 is ten members in the Pig Club and ten in the Poultry Club. Mr. Miller thinks he will easily have this number by March 15th when the next meeting, for the purpose of organizing the clubs, will be held at the Candy Run school house at 2 p. m.

At a recent meeting of the directors of the Scioto County Fair Board \$500.00 was appropriated for Boys' and Girls' Club work. Mr. Miller says Jefferson Township is going to get their share of the prizes. Let some of the other communities be heard from.

### Farrowing Time

Nothing in the industry of swine production demands more careful attention than does the sow at farrowing time. This fact should be kept well in mind at present as our sows are now dropping their spring litters. The trouble encountered at farrowing will depend largely on her previous feeding and care. The sow should be in good condition and thrifty. Her ration should be high in protein to provide for her growth and maintenance as well as the development of the piglets. A few days before farrowing she should be placed in the farrowing quarters and her ration cut down and changed to a light, cooling one. Light slops of wheat middlings, bran and ground oats are recommended. The farrowing pen should be clean, well ventilated and so arranged as to eliminate

drafts. Wheat straw or chaff makes the most desirable bedding, and this should not be furnished in large quantities, as too much bedding often causes the sow to lay on her young. A two-inch by six-inch plank spiked edgewise to the wall about eight inches from the floor often prevents the sow from crushing her young.

After farrowing the sow should be given nothing except lukewarm water for about twenty-four hours. Then a light slop should be given and the ration increased, as we wish the milk flow increased. The sow must have a ration high in protein at this time if the young pigs are expected to be thrifty. If sufficient protein is not fed, the sow will sacrifice herself, tear down her own body tissue for the sake of her young, and as a result will become thin and unthrifty. If the sow is not fed sufficient protein at this time she is very apt to eat her young. A properly balanced ration will usually overcome this trouble, but if it does not she should be sent to the butcher.

Milk, tankage and wheat middlings are the most common protein feeds used for balancing rations. In this section corn is the best carbohydrate feed; although barley and rye are good. The ration should not have a wider ratio than 1:3 or 7. The sow should be fed enough to maintain her weight if possible. The sow that is bred twice a year requires better care than the one that drops only one litter a year.

The mineral contents of the ration must also be supplied, especially where the sow is kept in close quarters. A pig with insufficient minerals develops porous, brittle bone and may result in rickets. If a sow has access to charcoal, bone ash, ground rock or phosphate and salt she will balance her own ration with reference to minerals.

THOUSAND YEAR REIGN OF CHRIST AT HAND. MILLIONS NOW LIVING WILL NEVER DIE. The Kingdoms of this world; even while being crushed by the Kingdom of God, will be quite ignorant of the real cause of their downfall — until, in the close of this "day of wrath," the eyes of their understanding shall open, so that they will see that a New Dispensation has dawned, and learn that Immanuel has taken to Himself His great power, and has begun His glorious and righteous reign. — Rev. 20:4.

Many glowing offers of high rates of dividends, and a phenomenal increase in value of the principal are made to people to induce them to invest in so-called securities. Then later the investors find not only NO dividends forthcoming but even the principal greatly reduced in value if not a total loss. would have to be brought here.

"We figure boxing is established  
here and now that it is more experi-  
enced boxers, those willing to put on  
a real scrap, must be booked. In the  
future," a member of the Commis-

"We have been lenient with the  
promoters, but from now on no more  
over-matching or stalling will be per-

fight will be stopped. The boxers are  
well paid and must put forth their

far from being satisfactory. From  
any standpoint and no more bills like  
this will be sanctioned," members of  
the Commission said Saturday.

## THE ALCOHOL HABIT AND THE LAW

By John Collins Jackson

It is commonly known that alco-  
hol is the drink-making ingredient  
of all strong drink. It is alcohol  
which gives drink its coveted "kick".  
It is also known to all intelligent  
people that pure alcohol is a deadly  
poison. It can only be taken in com-  
bination with other liquids. If the  
drinker is to live, the usual alco-  
holic content runs from 3 to 5 per  
cent in beer; hard cider and ale, 5  
to 9 per cent; champagne and burgundy  
from 10 to 13 per cent; sherry or  
madiera, from 10 to 20 per cent; gin,  
rum, and strong liquors contain from  
40 to 50 per cent of alcohol.

Drinks of even 1 per cent will in-  
toxicate, if the drinker can equilib-  
rate enough of the stuff at one time. The  
Congress of the United States, there-  
fore, wishing to carry out the will of  
the 48 states of the Union, which  
petitioned an amendment to the Con-  
stitution of the United States after  
over a century of agitation and edu-  
cation on the drink evil, forever pro-  
hibiting the manufacture and im-  
portation, and sale of intoxicating  
liquors as a beverage, wisely fixed  
the limit of alcohol in per capita-  
drinks at not more than a half of  
one per cent.

We need not here detail the effects  
of alcohol on the tissues, nerves, and  
vital organs of the human body. In  
general the effect is to impair self-  
control from a degree in which the  
drinker does his work less well, and  
can endure less fatigue, up or down,  
to staggering and stupor, and final  
unconsciousness. Its victim may fol-  
lowed by a corresponding reaction.  
The desire for this stimulating effect  
grows with use, and becomes a fixed  
appetite of more or less intensity. In  
the extreme, reliable persons have  
testified that even though they knew  
certain death would attend their in-  
dulgence, they could not resist the  
temptation to imbibe the alcoholic  
fluid.

That this is true is being abundantly  
proved now by the confirmed al-  
coholic victims, who will risk every  
form of disease, from the alcohol  
preserving animal specimens to avoid  
alcohol, for relief from their torment-  
ing mania. Who can do less than  
pity such unfortunate? But an ounce  
of prevention is worth a ton of pity  
in their behalf. Every good citizen,  
much more every would-be philan-  
thropist or patriot, must wish to pro-  
tect his fellow-being from falling  
into this dire condition. The general  
government, as well as our several  
state governments, protects us  
through our pure food laws, from  
poison in the form of tainted meats,  
etc., etc., and we rejoice in this. No  
effort is made to evade "summary  
laws" in our eating. We have no  
people so foolish as to buy secretly

from peddlers, half-spiced meat or  
added eggs. Yet the only difference  
between food poisons and drink poisons  
is in the kind of poison that they con-  
tain. The drink poisons are even the  
more violent. There are people in  
every land so low in the scale of de-  
velopment that they are immune to  
eating poisons. But no case is  
known where even the moderate, habi-  
tual use of alcoholic drink does not  
finally reveal its pernicious effects  
on the nerves and tissues of the  
drinker. The habitual use of alcohol  
is as certain in its effects as the law  
of gravity.

Prohibition is benevolent in its  
aims and its results. Every slur,  
or snarl, or jest, or joke at its ex-  
pense is a covert attack on the law  
which seeks to protect people from  
drunk poisoning, as much as the same  
things would be against our pure food  
laws, which seek to protect society  
from poisons, or pellions of the  
table. It would be just as sane to de-  
fend the adulterations of sugar, but-  
ter, coffee, milk or cereals as to make  
a joke of evading the laws against  
drunk poisoning. That is what the word  
"intoxication" means: it is simple  
poisoning.

The effect of alcohol on the brain is  
due directly to its burning of the  
albumin, which abounds in every part  
of the body, but especially in the  
brain. This hardening effect can  
easily be demonstrated by pouring  
a little alcohol on the white of an egg.

The result is to "cook it" almost in-  
stantly, because albumin exists so  
abundantly in the white of the egg.  
When a poor, old "soak" saw this  
done in my temperance meeting, he  
declared he "could never eat any  
more eggs." Had his brain not been  
already addled by alcohol he would  
have known that his resolution would  
have no more effect than when the  
blind man smashes the missionary's mi-  
croscope, because it revealed insect  
life in the sacred waters he drank,  
and his religion forbade him eating  
any kind of animals. To say one is  
"intoxicated" may sound finer than  
to say he is "drunk"; but it means  
the same thing. A young girl said in  
my hearing, "I saw a lady on the car  
who was intoxicated." Yes, but if  
you want to tell the plain truth so as  
to discourage such beastliness say,  
"I saw a female bladd who was  
drunk." That is the fact. Ladies  
do not get drunk.

You can't be an expert on odors  
and use Blue Devil Cleanser in your  
home.

## REAR FAMILY BY RHYTHM!

MRS. WINIFRED SACKVILLE STONER AND HER DAUGHTER, NOW THE COUNTESS BRUCHÉ, WHOM SHE MADE AN INFANT PRODIGY BY RHYTHMIC READING. MRS. STONER BELOW.

BY RUTH ABELING

NEW YORK—Winifred Sackville Stoner has just finished organization of the sixty-second neighborhood forum in New York City. At these forums Mrs. Stoner will teach mothers her theories of raising children by rhythm.

It is Mrs. Stoner's belief that being rhythmic prolongs life.

"If people were rhythmic," said Mother Stoner, "they could live to be 120 years old."

"This is a jazz age," she continued. "Jazz shortens life. It is worse than booze."

Rhythm is the very fluid of existence. It is the foundation of all natural education.

"And that is why," said Mrs. Stoner, "I started from the very moment my daughter was born to teach her rhythm."

Mrs. Stoner's daughter is the Countess Bruché and during her childhood, as Winifred Sackville Stoner, Jr., won world-wide fame as a prodigy.

"I am a jingle maniac; I have a jingle for everything, even jingles which tell the antidotes for poisons—and why not?" she queried. "Don't you remember the months by thirty days last September?" and so on? Didn't you learn it so when you were a child? Then why not learn everything that way babyhood on?

"Environment is the architect of heredity," continued Mrs. Stoner.

"Toys are the architects of environment."

"Thus if a child is surrounded with rhythm and beauty in his toys from his earliest days, that child will become practically anything his mother wants it to become."

"Even a baby's rattle should be the loveliest toned one that can be found. There should be music and beauty about everything."

"And by that I'm not suggesting that every mother ought to sing her child to sleep at night. That might be inhuman! Some mothers sing their babies into a state of coma. They make them miserable by squeaking at them."

"I would suggest for the mother who can't sing and has no command of music about the house, the reading of poetry to her baby at bedtime."

"I used that system with my daughter," said Mrs. Stoner, "and that is why at six months she talked, at 17 months she wrote poetry, at

### Winifred Sackville Stoner's Commandments For Mothers

1. Thou shalt not administer unto thy child physical punishment.
2. Thou shalt not scold thy child but give rewards for good behavior.
3. Thou shalt never say "don't" to thy child.
4. Thou shalt never say "must" to thy child.
5. Thou shalt not give thy child occasion to disrespect thee.
6. Thou shalt never frighten thy child.
7. Thou shalt not allow thy child to say "I can't."
8. Thou shalt always answer thy child's question.
9. Thou shalt not tease thy child.
10. Thou shalt make thy house the most attractive place thy child can find.

three years she published a book and by the time she was 17 she had published 17 books.

Mrs. Stoner's daughter is now 19. "Rhythm did it," continued Mrs. Stoner, "and rhythm can do that for any mother's son or daughter."

"Children do not need to be spanked."

They can be controlled by song suggestion. They can be made to eat the porridge they don't like by having music at their breakfast. They can be taught their letters and figures and to be graceful with music.

"A musical morale should take the place of the slipper."

### Chamberlain's Declaration Of Solidity Of Cabinet Behind Premier Has Little Effect

LONDON, March 4.—(By the Associated Press.)—Austin Chamberlain's declaration of the solidity of the cabinet behind Mr. Lloyd George has had little appreciable effect on the situation which threatens to bring about the resignation of the prime minister. In the opinion of the majority of the political writers in today's newspapers.

It is generally conceded that the crisis continues at an acute stage and even the journals most anxious to preserve the coalition government candidly admit that the position is about as serious as it possibly can be.

No important developments are looked for until after the week-end. Mr. Lloyd George has gone to Mr. Chamberlain's country estate, where he will have as his guests over Sunday Mr. Chamberlain, Lord Chamberlain, Birkhead, Sir Arthur Balfour, probably Sir Robert Horne,

and possibly Andrew Bonar Law and the situation naturally will be exhaustively discussed.

Meanwhile, the friends of the coalition are continuing efforts to keep it together. Winston Spencer Churchill, secretary for colonies, and a liberal, speaks at Longborough today and will doubtless emphasize Mr. Chamberlain's view of the necessity of retaining Lloyd George at the head of affairs.

A movement is reported among the conservative coalitionists in the house of commons, who disagree with the "safe hands" to get together at the earliest opportunity and formulate an address to the premier assuring him of their support and urging him to remain in the helm.

The outcome of the income tax fight on the outside for the unknown. Lord is also what looks like.

## PARAMOUNT'S 10th ANNIVERSARY

will be celebrated every day of March in every town of the U. S. Every day brings renewed gratitude for motion pictures.

You know by instinct that you were not made for only the dull routine of workaday life. You deserve a life spiced by adventure and romance.

And Paramount knows it! Paramount knew it in 1912 when it made the first feature picture—and Paramount has made the vast majority of the best feature pictures every year since!

### The Name Paramount Stands for Whatever is Best in Motion Pictures

The history of Paramount is the history of motion pictures—all the way from the day when Adolph Zukor started the world by starting "the divine Sarah Bernhardt" in "Queen Elizabeth," and Jesse L. Lasky and Cecil B. De Mille made "The Squaw Man"—up to such successes of today as Cecil B. De Mille's "Fool's Paradise," Gloria Swanson in "Her Husband," "Trademark," and Wallace Reid in "World's Champion."

That's why this tenth birthday is worth celebrating.

### Enjoy Paramount's Birthday at Your Theatre

You are going to enjoy it if the Paramount Showmen in your town and every town have their way! There will be something happening all the time in the way of stimulating Paramount entertainment.

Here are a few of the wonderfully successful pictures of the last few years—all Paramounts!—just a handful chosen from hundreds.

Sarah Bernhardt in "Queen Elizabeth," Mary Pickford in "Test of the Strong Country," John Barrymore in "Are You a Mason?" Geraldine Farrar in "Carmen," "The Cheat," Marguerite Clark in "Miss George Washington," Masterpiece in "The Blue Bird," Cecil B. De Mille's "Don't Change Your Husband," "The Affairs of Anatol," "Male and Female," George Loane Tucker's "The Miracle Man," "The Woman Thou Gavest Me," Wallace Reid in "The Valley of the Giants," Thos. ### Child To Leave Hospital Well After 14 Operations And 45 Skin Grafting Ordeals

DALLAS, TEXAS, March 4.—(By the Associated Press.)—Dorothy Cannon six-years-old, who has undergone fourteen serious operations and forty-five skin grafting applications, will be discharged from a hospital here within a month, a well child, doctors declared today. Dorothy was given up as dead when she was found lying on a live wire in a puddle of water last June and then looked upon as a hopeless case for two months after she was brought to the hospital.

How long she lay on the wire is not known. When her mother found her, her clothing had been burned away and her body was black.

Members of the family and many persons who became acquainted with the little girl through her illness, insisted upon giving skin.

"The only trouble we have had," the surgeon in charge said, "is selecting dates for the skin grafting. There were al-

ways too many present trying to give their skin."

Dorothy has been able to walk little more than a week, but in that time has gained several pounds in weight and recently tipped the scales at 46 pounds.

She will be dismissed with very few visible signs of the agonizing condition which kept her flat on her back for nine months, doctors said.

Dear Dolly—My daughter in Los Angeles, Cal., is supposed to have gone to a hospital in that city January 28th to be operated upon, but I haven't had any word from her since. Dolly, I can't hear from her for some reason or other. I have gone so far as to telegraph the chief of police in that city, and still no word up to the present date. Now,

Dolly, what would you advise me to do. I don't know anyone in Los Angeles, and I don't know what hospital she is in. Please answer as soon as possible as I am worried sick.

WOORIED MOTHER  
I would advise you to send a special delivery letter to the superintendent of the various hospitals there, enclosing a stamped envelope for reply and ask them for information regarding your daughter. Send description of her, as she may have entered under an assumed name.

The following are the hospitals there: The Good Samaritan, The County Hospital, The Santa Fe Hospital, The French Hospital, The California Hospital, and The August Hospital. Put your name and address on the outside of the envelope so that it will be returned to you if not delivered.

Dear Miss Wise—I sent this question to Richards the Wizard, but he never answered it. Dolly, will I ever see my farm? If so do you think it would be the best thing for us to do? Dolly, will I ever regain my health?

M. C. S. M.  
I think you can sell your farm if you will place it on the market, or advertise it in The Times. Would advise you to consult a good physician about your health and do not waste any time asking wizards and fortune tellers about your condition. Delays are dangerous when it is a matter of life and death, and the best thing you can do is to have a physician give you a thorough examination. Don't let him stop after he has looked at your tongue and counted your pulse. See that he examines you thoroughly and tells you whether or not your trouble is serious.

Dear Dolly—You guessed wrongly in your answer to my letter the other evening. I am not a Parisian. But one cannot judge France by seeing Paris alone. Paris is rather an international city. There are more foreigners in Paris than Frenchmen. Over there only girls of a low character use artificial products to cover up their ugliness and meanness. I don't consult.

OTLALA  
You should have made your letter more explicit. I am not a mind reader, you know. You said you had only been in this country ten months and you spoke only of Paris, so that is the reason I thought you came from there.

Dear Miss Wise—This is the first time I have written to you. I am answering the European's letter in regard to the American girls, and I must say he sure has his nerve to talk about the American girls in such a way. He had better look back to the girls of his own country. He ought to remember that the American boys fought in Europe long enough to know how they act and dress, and if he doesn't like America and her young girls let him go back to his own country.

ONE WHO KNOWS.  
I hope this will settle you for awhile.

Dear Dolly Wise—I am coming to you for a little advice. The other night I bent my axle and happened to let the machine run in a little ditch. The next day some woman said that I was drunk and told everybody within 50 miles of here. Don't you think she was out of her place? Would you make her prove it?

STRICTLY SOBER  
I think I would drop the subject. If you did try to make her prove it, she would say "crawlfish" out of it by saying she never said it. You would get a lot of notoriety and little if any satisfaction. I don't imagine she told half as many people as you think she did.

Dear Dolly—Please tell me where Richard the Wizard went. I have some questions I want to ask him.

## Discoverer Of Truth Serum Explains Drug's Work

By NEA Service

DALLAS, Tex. —Dr. Ernest House, country physician of Ferris, Tex., who started the nation by his discovery of "truth serum" at last has broken his silence. He granted his first interview today to The Times correspondent here.

Dr. House's "truth serum" is a drug that he says paralyzes the imagination and renders one who takes it incapable of telling a lie. Its practical value is in the examination of criminals and crime suspects.

The active element in this drug is scopolamine, the same substance that is used in the "twilight sleep" method of painless childbirth.

Long Relicent

When Dr. House's discovery first became known, Dr. House refused to discuss it. He even refused to let his name be made public. All because of medical ethics.

But—After successful tests of the drug had been made here—

After a negro in the Dallas county jail obtained his freedom when he took the "truth serum" test when state witnesses refused to accept the word—

After state authorities decided to permit tests at the state penitentiary under joint supervision of Dr. House and State Health Officer John H. Florence—

Dr. House decided he could safely speak.

"I speak only with the intention of aiding those peace officers who wish to test the efficiency of 'truth serum,'" Dr. House said.

Encourages Experiments

"The best way to develop the peculiar qualities of this drug and its value in criminology is to encourage as many experiments as possible.

"I make no extravagant claims for the drug. I simply state that in the cases of 500 women to whom I've administered scopolamine in childbirth cases in the last six years, the drug has proved its power to inhibit imaginations and prevent the patient from telling anything but the truth.

"The method of administering 'truth serum' is entirely different from the technique advised for the administration of scopolamine to induce twilight sleep.

"Stronger doses can be administered for mind tests. The woman in childbirth is safest when a condition known as amnesia has been induced.

Deeper Sleep

"But in dealing with a criminal a deeper sleep, known as analgesia, must be brought about.

"In making tests important questions should not be presented until memory tests convince the operator that the patient's mind is in a receptive mood.

"Further, to insure absolute reliability, the patient may be given a few whiffs of chloroform, the anesthesia being carried far enough to prevent possibility of the patient testifying.

"I want to emphasize that scopolamine is harmless. The United States Pharmacopoeia says there's not an ounce of single death from its use."

## Asks All Physicians To Aid

BY DR. ERNEST HOUSE.

THE tests I am making are intended to permit humane means of unraveling the intricate details of crime to the end that justice may be done both to the accused and to the state.

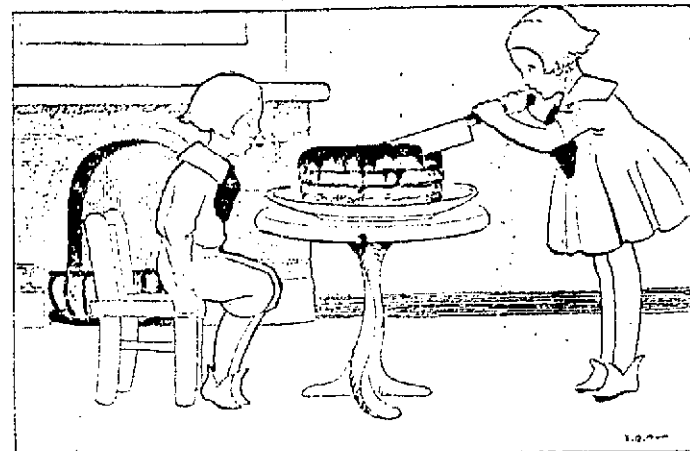

A method of this kind cannot be developed in a day. I did not give my technique for the confinement of women to the medical profession until I had delivered 577 women under the influence of scopolamine.

Every detail must be carefully studied before conclusions are drawn. It would be of assistance to me if every capable physician would assist in these observations because we shall need much data to study the problem in all its bearings.

I ask that all opinion be held in reserve until evidence proves or disproves the correctness of my theory.

## Adventures Of The Twins

BY OLIVE ROBERTS BARTON

Nancy found a knife and started to cut a slice

EVERYTHING inside the little house was as handy as could be and soon Nancy and Nels were as comfy as two hogs in a pigsty. Nancy found bread and butter and three sweet milk on a shelf in the cupboard, as well as some gooseberry marmalade. "We'll have the cake for dessert," she said.

The Twins sat down at a little round table, on two sturdy chairs that just fitted, and as they were as hungry as woodchucks after a hard winter they were soon stuffing themselves.

All the while the house talked down its chimney to them and out of the fireplace. And the Twins told him about their adventures, how they had started out to find the best photograph record on which were the words of Longhead, the Wiseman, who lived at the third end of the earth, and how they were to cross the Seven Mountains and stop the quarrel between the Diddys and the Kersknotts.

Soon they were ready for the cake, taking it out of the basket so as not to touch the Cloth of Dreams that Twelve Toys had slyly tucked under it.

Nancy found a knife and started to cut a slice, when suddenly the knife struck something hard. She tried another place, but the same thing happened.

"Goodness, it's as hard as a stove-lid in the middle," she cried impatiently.

Just then the house spoke again. "Could it be the last record?" it asked. "If it is, it's easy to find out, for I have a photograph in the hall."

Now, my dears, it was the record that was in the cake, as we know, and with shouts of joy the Twins pulled it out. And in a minute it was on the photograph and starting to talk.

But alas! A shred of the Cloth of Dreams clung to it. All the record could say was:

"Oh, I forgot! I had a message, but I forgot it! What will Longhead, the Wiseman, say? I forgot everything!"

## NEW SCIENTIFIC DEVICE CAN REVEAL SEX OF EGGS

By NEA Service

NEW YORK, March—Ever buy a setting of eggs in hope of hatching a flock of boys to keep you in eggs all reason, and then turn out a flock of roosters?

You won't have to do it again, for the latest scientific device is a "sexometer" that enables you to tell whether an egg houses a potential hen or rooster, says a current issue of Popular Science Monthly.

Now poultry raisers can send the eggs containing roosters to market and keep the eggs containing hens for hatching.

The "sexometer" consists of a piece of cork wood with copper wire from which is suspended a pendulum of wire ending in a flat piece of aluminum plated substance.

In examining the egg, the cork is held in one hand and the egg is held in the other. If the egg is male, the pendulum, it is claimed, will swing in a circle. If it is female the pendulum is said to swing back and forth.

It has been demonstrated that the device when held over one egg will swing in a circle; yet when it is held over another, it will swing back and forth.

Whether these varying motions are due to the sex of the egg, or to such incidental qualities as shape and size, is a puzzle that no one has been able to answer.

The inventor claims that in experiments covering a period of six months, the instrument forecasts on 85 per cent of the eggs tested were correct.

## Wm. Evans Is Indicted For Manslaughter; Grand Jury Reports; Ten Cases Ignored

The grand jury completed its inquiry into alleged law infractions brought to its attention and submitted a report to Judge Thomas in common pleas court late Friday afternoon, returning nineteen indictments and ignoring ten of the twenty-nine cases probed.

The jury was in session two days and during the time examined 87 witnesses covering the twenty-nine cases considered.

The court in excusing the jury subject to call took occasion to thank the members on behalf of the tax-

payers for their diligence in performing a public service.

Of the true bills returned ten were held secret pending the arrest of the persons named in them and the other nine were made public. The most important of those made public is the bill against William Evans, steel worker, driver of the automobile which figured in the accident on the West Side on the night of February 24 and resulted in the death of Charles J. Molander of Dayton, who was killed when the machine ploughed off the road. Evans is charged with manslaughter.

## Officer Joe Bonzo Receiving Encouragement In Sheriff Race

Sergeant Joe Bonzo of the local police force, who recently entered the race for the Democratic nomination for sheriff, is much gratified at the encouragement he is receiving from his many friends throughout the county.

While Joe has not yet had opportunity to make a trip through the county, he has met many of his friends from the surrounding districts, when they came to the city, and they report considerable sentiment for the genial officer who is widely known outside the city, he having been born and reared on a Scioto county farm.

Practically all of Officer Bonzo's life has been spent in this city and county, the only noteworthy exception being an absence of eight years which he spent as guard at the Ohio State Hospital in Columbus and two years as a guard at the Ohio Penitentiary at the capital city, under the administration of Governor Judson Harmon, and while Colonel T. H. B. Jones, of Ironton, was warden of the big state prison.

Joe was one of Governor Harmon's original boosters in this county, having campaigned the county for the former governor when he was making his race for election to the executive office of the state.

After severing his connection as a guard at the big penal institution at Columbus, Joe again located in Portsmouth and since that time has been continuously on the local police force, first as a patrolman and later as sergeant.

During his tenure as an officer, Officer Bonzo has made himself conspicuous for his enforcement of the law whenever violations have come to his attention. And this is the foundation stone of his campaign for the office of sheriff—enforcement of all laws without fear or favor—and those who know Joe best have no doubt of his ability and determination to see that all laws are enforced in case he should be nominated and elected to the office of sheriff.

## BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel.

Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lumpy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 30c.

Mrs. Joseph Lang of Dogwood Ridge, Wheelersburg has 100 Rhode Island Reds that take the prize when it comes to champion egg layers, says Mrs. Lang. Heaven

Heaven is the sum of all that is good. It is the absence of all that is evil. Heaven is a state of everlasting life. In heaven the blessed shall see God face to face. They shall be made like to God in glory—They shall enjoy eternal happiness. The saved shall be happy. The capacity for enjoying heaven will vary according to one's merits. The vision of God will satisfy all. God created us for Himself and we shall not be at rest until we rest in Him.

# HOLD MAN AT NEW BOSTON JAIL IN CONNECTION WITH CLEVELAND MURDER

## Four Break Jail At Greenup

Another jail delivery was successfully pulled off at an early hour this morning in Greenup when four prisoners gained their freedom and are still at large. Eight other prisoners were prevented from gaining their freedom when Jailer Darby, who has been very ill, was awakened by the noise made by the four escaping prisoners.

They were Henry Skidmore, who was to have gone on trial today for breaking into the C. & O. depot at Fullerton, John Stevens, charged with stealing coal from the C. & O., and John Blanton and Marion Cox, who were charged with manufacturing liquor.

Says had been smuggled to the men and they sawed the bars near the bottom of the door, where their food is handed to them.

Biding their time, when Jailer Darby was asleep they removed the iron bars, crawled through the hole in the main corridor on the first floor. When they found the front door locked they quickly ran to the basement, where they found a side door unlocked and made good their escape.

Just as Jailer Darby reached the corridor several other prisoners tried to get past him, but he forced them to return to their cells and kept a close watch on them during the balance of the night despite his illness.

He will make a determined effort to learn just when and how the saws were smuggled into the jail.

Planton and Cox were also to have been placed on trial today in the circuit court now in session in Greenup.

## Aunt Of Local Man In Bus Tragedy

F. J. Bowen who conducts the Speedway tire store at 827 Sixth street received a message Saturday morning conveying the news that his aunt, Mrs. Ann Lauter-

nich of Madison, O., was among these badly injured last night when a New York Central Express crashed into a bus at the S. C. Clark Crossing near Cleveland and many were killed and injured.

The message stated that she was not injured internally and would recover.

Link told Mayor Newberry shortly after being locked up. Link steadfastly refused to answer any questions asked of him and is morose and sullen since locked up. He admits that until two weeks ago he was working in Cleveland.

Link, who says he is a Canadian by birth, has blue eyes and light hair and is well dressed. He says he had been working at the S. C. Clark plant since coming to Portsmouth.

He has been seen around New Boston and has made friends there since being in that village as he is a fluent talker and a good mixer. His mother-in-law is said to live on Rhodes avenue, New Boston.

"I am satisfied that Link might have shot himself if he had gotten hold of the officer's gun," Mayor Newberry told a Times man.

Mayor Newberry at 2:30 this afternoon received the following telegram from the Chief of Police in Cleveland: "Hold Norman Link, Detective on his way to get him. Under no circumstances release him."

Mayor Newberry said late this afternoon that Link would not be questioned until the arrival of the detective from Cleveland.

Link was released in bond for his appearance for trial next Tuesday.

Harrigan was arrested at Front and Ninth streets late Friday by Patrolman Powers, whose absence from court made it necessary to continue the hearing until he can appear. Attorney J. F. Johnley represented the accused.

C. Caban, a companion of Harrigan, pleaded guilty to drunkenness, although he claimed to have taken but a couple of drinks and insisted he was not under the influence of liquor, and he was taxed the usual \$10 and costs.

According to Officer Conley Byers and Buckley were trying to crank a truck of the city when arrested. It was filled with cinder and they were on their way to the city when picked up.

Back of the firing of Dan Buckley and Newt Byers, city employees on charges of intoxication by Mayor Newberry, are indications they had better watch their step when they visit that village.

Byers and Buckley were arrested on West and Rhodes avenue Thursday afternoon at 2:30 and were in jail until 10 p. m. Thursday evening when they gave bond. On Friday afternoon they appeared in Newberry's court and were fined \$5 and costs each on charges of intoxication.

The inquiries proposed are of the Miami and Erie canal route from Cincinnati to Toledo, Ohio, including the branch canal connecting the Miami and Erie canal with Lake Michigan; a proposed canal from Portsmouth to Sandusky, Ohio, and a proposed canal from Pittsburg to Lake Erie. A channel of 12 feet depth with a minimum width of 75 feet is contemplated.

The wife files answer. Answering the divorce suit of Melvin R. Smith, Marguerite L. Smith denies his charge and through Attorney Miller, Johnson and Skelton accuses him of cruelty, declaring that ever since her marriage to Smith in June, 1920, he has abused and cursed her and beaten her at times too numerous to mention.

The wife prays that she may be given the divorce and alimony with custody of their infant child. The couple live on the West Side and by reason of their differences there is a separation between them.

Mrs. Hahn seeks divorce. Elizabeth Hahn, 917 Chillicothe street, charges neglect, cruelty and infidelity in her suit for divorce and alimony instituted in Common Pleas court Saturday against August Hahn, laborer, whom she married in April, 1910.

In her petition filed through Attorney Thos. K. Pank she alleges that Hahn in disregard of his marital duty toward her, has, for the greater part of their married life and especially during the past 2 years, treated her with great cruelty, declaring that during that time he has consistently abused and mistreated her and claims that on one occasion threatened to kill her with a butcher knife, besides, she complains he constantly ordered her to leave her home, accused her of a want of chastity and committed other equally offensive. Furthermore, the wife says that Hahn has failed to support her properly and that he has been guilty of misconduct with other women.

A temporary injunction was allowed to issue restraining the defendant from harassing or molesting the plaintiff at the Chillicothe street address and expelling him from the house Friday night while the case is pending in the common pleas court.

A tire and rim stolen. H. K. Moore, 1229 Hardsburg street, called to the police this morning about a tire and rim from his house Friday night while the car was parked in the down town district.

# BLAIR-LAYMAN BOUT HALTED WHEN LAYMAN SUFFERS BROKEN HAND; PRELIMS WERE VERY TAME

## Fans Disappointed Over Sudden Termination Of The Main Go

A bout that from the start looked like another sure knockout to the credit of Sergeant Nig Blair was terminated suddenly in the first round last night when Kid Layman of Huntington suffered a broken right hand. Layman was game and did his best, but he was out of luck. Blair, who was all right, but he was not in the mood to fight. Blair was broken and it would be foolish to take chances of damaging it more.

The crowd last night was not the best pleased with the main go ending so suddenly. It was plain to be seen that Layman suffered considerable pain in his hand for he nearly doubled up on the floor before he was helped to his corner.

The main go started with both boys showing a willingness to mix despite the thoughts of local fight fans that Layman would endeavor to stay away from Blair's punches. Layman went into the fight in just the opposite manner. He took the first lead by sending a straight jab to the face but it was a light blow and only made Blair more eager to start war with things up. Three times blow-for-blow was exchanged and then Blair started and he landed a half dozen good punches to body, head and face while Layman was making an effort to load. Layman did get in one or two straight jabs but they did not have enough push behind them to cause Blair any great worry.

Blair started his slam bang fighting and soon had Layman in the corner of the ring where he took the count of nine. He slowly took his feet but once up seemed to take on new life as he made several healthy swings at his opponent while Blair neatly dodged or backed away. After a few taps from both, Layman dropped his defense and grabbed his right wrist. Referee Ryan asked him if he was going to quit and even started counting him out when Layman said he would try to keep on showing he was game through and through. The bell stopped the count of the referee and Layman was assisted to his corner. His seconds calling for a doctor before they got Layman's glove off. The way Layman held his arm and the look on his face showed that something was wrong and the physical was called while the seconds reeled off the count of nine. Blair knew when he broke the hand when he hit Blair or fell on it when sent down by Blair for the count of nine.

The preliminaries and semi-finals were unusually tame and when the main go flivvered the fans left the hall sorely disappointed and they did not hesitate to voice their disapproval of the way the fight was handled.

When the prelims failed to please it was thought the main go would save the bill, but when it went up in smoke the fans were keenly disappointed.

**Chapman Wins**  
George Chapman local boy met Frankie Ross of Huntington at 120 pounds in the semi-final. Chapman showed more fighting in this match than he has shown in any of the previous ones and by doing so won a number of friends although Ross was a favorite with some of the crowd for they yelled at him to go and get Chapman after the local fighter had rushed Ross through the ropes.

Chapman was declared the winner in a tame bout.

**Lewis Beaten**  
The first semi-final between Nub Davis of Huntington and Fighting Billy Ryan of Cincinnati ended in the second round with Ryan landing a knockout blow to Lewis' chin.

Lewis weighed 150 and Ryan 145. Both fighters started a left and right slugging affair but after exchanging about a dozen blows settled down to a different kind of fight, Lewis with a shoulder movement like a first class slugging duffer and Ryan looking more like a professional fighter. Ryan landed a left jab to Lewis' chin and after a few more blows Ryan landed a right jab to Lewis' chin and after a few more blows Ryan landed a right jab to Lewis' chin and after a few more blows Ryan landed a right jab to Lewis' chin.

**McLaughlin Made Hit**  
The preliminary bout between Harvey McLaughlin of this city and Dick Clement of Billy Ryan's stable (Cincinnati) at 180 pounds each was a fairly good bout for six rounds. Mack's new to the ring game and he showed that he has the old stuff to stick by remaining six rounds from the more experienced man from the Green City.

The preliminary bout was given the decision on points by the boxing commission, although the crowd did not favor the decision judging from the yells that greeted the announcement that the "Silver Hand" won. There was a little too much stalling in this go and the box kicked.

## Sciotoville Defeated By Eaton Five

The Sciotoville high school quintet playing in the southern half of the state high school elimination tournament at Ohio Wesleyan University lost out last night when they went down to defeat by a score of 37 to 4, the winner over them being Eaton, a team from a small town in Preble county. The defeat eliminated Sciotoville from the tournament.

Sciotoville won its first game from New Dover Friday by a score of 28 to 10. Eaton won earlier in the day from Olive by a score of 19 to 10. Athens, Delaware, Piqua, Dayton

Stivers and Greenfield are said to be the real contenders for the southern half title, which will be decided today. Dayton Steele, always a big five in the tournament, was eliminated Friday by Cambridge by a score of 16 to 13.

Athens won its opening game from Grove City, 13 to 5, and its second game from Wilmington, 15 to 2. Stivers of Dayton and Newark had a hot battle in the third round, Stivers winning, 19 to 16, in a five minute overtime game. Greenfield won its opening game from Marietta, 11 to 10, and last night won from Urbana, 30 to 19.

Cambridge that eliminated Dayton Steele lost out to Piqua by a 23 to 15 score in the third round. The completion of the third round last night left 16 teams in the tournament. This number will be cut down to two by tonight when the finals in the southern half tourney are played.

Next week the two southern half winners meet the two northern half winners of last week, the state championship struggle to take place at Ohio Wesleyan next Friday and Saturday.

## Huntington Girls Beat P. H. S. 11 To 4

After taking the lead from the visitors in the first half by one point, the P. H. S. girls were unable to keep up the good work and Huntington girls won out in the second half, the game ending 11 to 4.

The P. H. S. girls did not score a point in the second half, although they had some chances on free throws. When it came to chances for field baskets, P. H. S. was not in it in the second half, the visitors keeping the ball in their end of the floor nearly all the time. P. H. S. was on the defensive and by bunching up failed to properly cover their opponent, the Huntington forwards shooting several long shots in the last half.

The first half was up and tuck. P. H. S. had the first chance to score on a foul ball missed. Huntington then made a field basket for the first point. P. H. S. came back with a foul, the first quarter ending 2 to 1 in favor of the visitors. Shortly after the second quarter started, Hartford shot a field goal from Portsmouth, making the score 3 to 2 in favor of P. H. S.

A foul by Huntington tied the score. A Huntington player made an extra long shot from the side of the floor, but traveled more than two steps in doing so and lost the two points, while Selby shot the foul, putting P. H. S. one point in the lead. Tight then and there the scoring was as P. H. S. was concerned, stopped.

The second half was Huntington's half all the way through, the local girls taking the ball down the floor only a few times.

Huntington shot four field goals in the last half, three more than was needed to win.

## First Game Is Called Off

CLEVELAND, O., March 4.—To-day's exhibition game with the Dallas team has been cancelled by the Cleveland Indians, because of the bad condition of the field as a result of rain and cold weather, according to advices from Dallas, where the Indians are training.

This is the first game of the season to be called off. Unless more bad weather sets in, tomorrow's game will be played.

The Indians got their first outdoor practice in a week yesterday, and the second since the first squad arrived at Dallas.

## Mason Beats Katz

DETROIT, March 4.—Frankie Mason, former fly-weight champion, won a ten-round bout here last night with Jimmy Katz, of Cleveland. The first six rounds were tame affairs and the referee called for more action. Mason was given a shade in the remaining rounds.

**RIGHT EARFUL**  
He won the swimming race by gosh. And then was reprimanded. Because the judge who watched his stroke was underhanded.

## Scout's Job Is Hard Task

Bob Gilles, veteran baseball star, now scouting with the New York Yankees, is always good for a yarn. Here is his latest:

"I was scouting the Shreveport club of the Texas League in 1907. We were battling for first place and about Aug. 1 I decided the addition of another pitcher would clinch the pennant for us.

"The club didn't have much money, but we decided to beg or borrow \$1200. For that amount I figured I could purchase a much needed pitcher who I believed would turn the tide in our favor.

"The pitcher I bought was more or less of a 'fiver,' and never got out of the minor league ranks. His name means nothing to my story.

"When I purchased this pitcher from a small Texas league team the manager told me he had a likely out-

fielder of great promise, who was just the boy for my circuit. He offered me the fielder for \$300.

"I wired back to Shreveport to see if they could dig up another \$300. I did this after I had watched the kid for a couple of days and liked his actions.

"The town had been milked dry and I came home with the pitcher but not the much wanted outfielder.

"We won the pennant that year and also some glory. However, I grabbed the outfielder who was offered for \$300 we would have made a lot of money.

"I will give you one guess. Well, it was Tris Speaker.

"All of which merely proves that scouting is a tough job. You often pick up 'fivers' and pass up the best.

## Ailes To Meet Gaus Or Hicks

Fighting Bob Lewis is the second fronton fighter to get the K. O. in a local ring, Kid Smith being the other. If Billy Ailes goes on the next show he will be matched with Cyclone

Hicks of Tronton or Gaus of Cincinnati. The latter is a real fighter and the fans are anxious to see him pitted against Ailes, as the latter is as clever as any of the boys around here or in any of the nearby cities.

## Here Are Winners At Ashland

Here are the winners in the boxing show at Ashland last night as given by Duke Ridgely, sporting editor of the Huntington Herald Dispatch.

Bob Martin knocked out Eddie Civil after one minute and forty-eight seconds of the second round had elapsed.

Joe DeMarco, Charleston, defeated Kid Smith, Huntington, in six rounds.

Jack Blackburn scored a technical knockout over Battling Beckenridge, Ashland, in the fourth round of a scheduled six-round bout.

Jimmie Perdue, Huntington, whipped Kid Dunn, of Charleston, in six rounds.

## Commission Gave Decisions

The matter of giving decisions in the boxing bouts held in the Auditorium was changed last night when the boxing commission gave the decisions instead of the referee.

The commission members kept close tab on every move of the boxers

and after the bout informed the referee as to who was the winner. Their services were not needed, though, in the Hart-Lewis fight, for Lewis had to be carried from the floor to his corner.

## Martin Wins In Two Rounds

As anticipated by well posted fight fans of this town the Martin-Civil scrap in Ashland last night was a blunder. Civil being knocked out in the second round, when Martin sent the Kentuckian sprawling to the canvas with a solid smack on the bottom.

Civil was out for 15 minutes. Despite the fact that he weighed 15 pounds more than Martin he was outclassed in every department of the game. The fans were sorely disappointed as they expected at least four or five rounds of real milling.

## SPRING TRAINING GOSSIP

When the teams go south for spring training they have two objects in mind, the conditioning of the veterans who have proved their worth and the trying out of the recruits.

Since the fans are familiar with the veterans and their style of play but much space is given to their work in the training trips. The war correspondents deal almost entirely with the recruits.

It is in the spring that the young pitchers are referred to as second Johnsons and Alexanders, that the outfielders are compared with Speaker, Cobb and Roush, that the infielders are likened to Bronson, or Collins, that the catchers are named second Schalks, O'Neills or Killifers.

The major league recruits each year are the cream of the baseball talent. The phenoms from every section of the country are gathered for a tryout. Every now and then some recruit makes good from the very start, like Walter Johnson or Frankie Frisch.

The careers of such players always

stand out in the eyes of the managers. Therefore when some well-wisher sends word that a certain player is the sensation of his particular neck of the woods the managers are usually willing to gamble.

This year almost twice as many comparatively unknowns are being taken south as in any previous year. Practically every club has a half dozen players little known except for the deeds they have performed in the section in which they live.

It is a big jump to the majors and fandom doesn't want to entice too much over the spring reports relative to the crop of recruits.

It is a rarity for some player to make good from the very start, as did Walter Johnson. He came from Weiser, Idaho, and was the talk of the American League inside of a week. There is always a chance for such a happening, however, and the gamble is worth it.

Will the 1922 crop of recruits produce any Walter Johnsons? Possibly, but not probably.

## Challenges Came Thick And Fast

Challenges were flung right and left last night. Kid Howard of Billy Ryan's stable in Cincinnati was introduced to the crowd before the main go. It was announced that he challenged the winner of the main bout last night.

Jack O'Boyle of Huntington was present again last night and was introduced as a challenger of "Fighting" Chick of Cincinnati and Jimmy Blankenship of Huntington.

## Clash Tonight

The Masonic Spectacles and the Solvay Survivors will meet on the Fellowship club alley tonight in a total pin contest. The Solvays will be explained by Howard Ellsworth Bangham, the crack southpaw who really believes that his team has a chance. Two old timers will roll with them, namely "Shorty" Schultz and Bobby Quinn. Captain Bangham refuses to divulge the identity of the two remaining members of his team but says they will not disappoint any royer who may be there to give his team any encouragement.

The Masus will be without the services of George Patton, their crack lead-off man who expects to spend the day with his parents at Manchester.

## Lewis Wins

In Wichita, Kan., last night, Ed "Strangler" Lewis won the second and third falls from Zhyzsko and thereby retained his title of heavyweight mat champ.

## Adoption Degree

Two candidates, Wilbur Farmer and Greenville Dale were given the Adoption Degree at the regular meeting of Seneca tribe of Red Men Friday night. The tribe will confer the Warrior Degree on a class of ten candidates at its meeting in the wigwam a week hence.

## ROSS OUTCLASSED IN THIRD BOUT

It was the third time that Chapman and Ross fought when they entered the same ring in the Auditorium last night. Ross claims to have earned two decisions over Chapman, but he surely was outclassed last night. The bell saved Ross on the occasions last night.

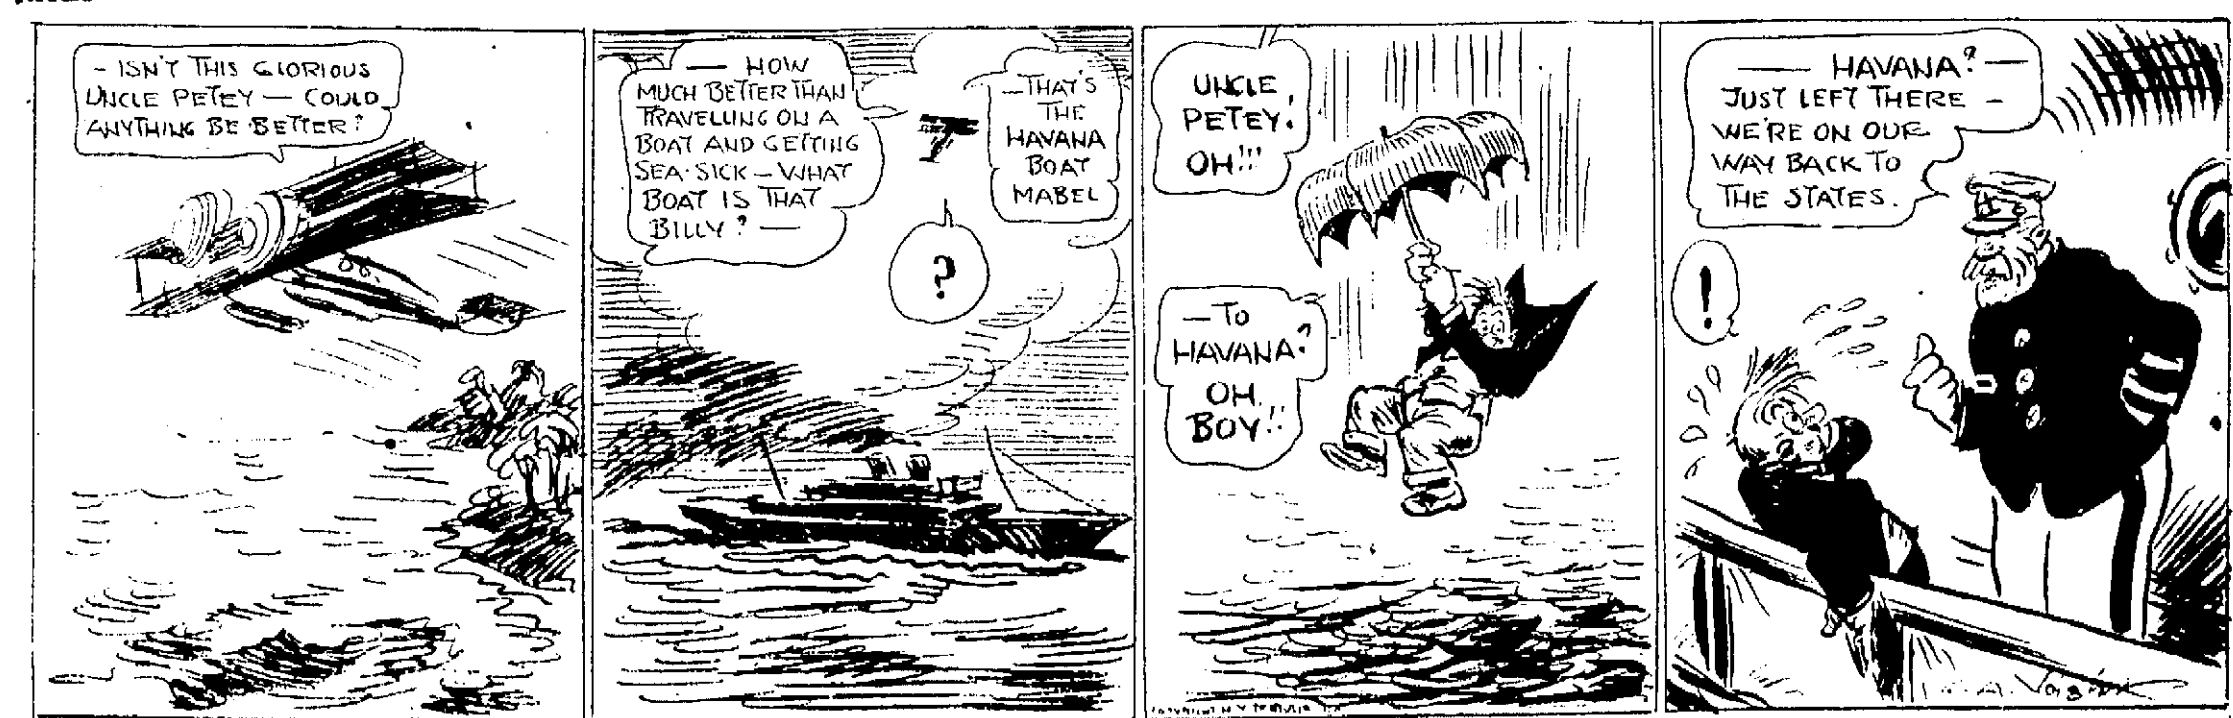

## To Report March 13

CINCINNATI, OHIO, March 4.—The University of Cincinnati baseball men will report for the first practice on March 13. All men intending to try should report at that time. The University will have to find two or three good men to replace those of last year's championship team.

Brookman, the leading hitter over a period of 3 years, Selz, star pitcher and McFarland and Fessenden, hard hitting outfielders, and Roy McDiarmid, one of the best of the infielders, will be missing when the squad reports.
